The New Critical Selling® Skills: Raise Your Sales Potential to New Heights

Being a top-performing sales professional is not simply reserved for those gifted with natural skills and abilities, nor is it an easy designation to earn. At Janek, we believe that succeeding in sales requires understanding and performing core strategies and tactics — and adhering to a proven methodology that focuses on solving customers' problems and understanding where they are in the buying process.

Janek Performance Group's renowned and recently updated **Critical Selling® Skills** program is the result of a two-year long research effort in which we surveyed more than 1,700 sales & sales management professionals and identified how their customers' research, evaluate, and make purchasing decisions. The knowledge and data that was gained from this expansive research project was then incorporated into our proven **Critical Selling® Skills** program. In addition, we created **XFactor™**; a new learning design model which speeds up the knowledge transfer process and brings the application of skills learned in the classroom to the marketplace at a faster rate. This combination provides sales professionals with the skills, best practices and behaviors they need to have more effective dialogues, convert more sales opportunities and develop longer-lasting more profitable relationships with their customers.

Using real world examples to illustrate key sales rep training concepts, the **Critical Selling® Skills** program fosters the development of research-based skills imperative for success in today's competitive marketplace.

“ I feel much more confident and prepared. This by far was the best sales training I have ever experienced. ”
